

# TRAINING

## You are on the right track.

Your HF curing press is ready to operate at site. To enable a smooth and an efficient production ramp-up, it is the perfect time for an individual training on the machine for the maintenance and operator teams. HF's expert for service and training is on your side.

### Individual training – benefits:

- Set up of individual trainings plans
- Best-practice training methods
- Work together as a team
- Detailed information and handouts
- Hands-on training at the press/PCI
- Optional online training sessions available
